

SISC Local Racing Rating Specification Confirmation Form

The established PHRF-NW 'Cruising Class' protocol will be used for all local SISC club races during 2014 except for the Round Saltspring race which is an open race sailed under base PHRF ratings.

A list of local 'CC' ratings has been maintained based on the estimated specifications of SISC sailing boats that have been previously raced. However these specifications should be confirmed to the rating Officer so all local rating adjustments can be as accurate and fair as possible.

All changes to specification and/or measurement of a boat made during the year (e.g. new sails, displacement lightening, bottom preparation) must be reported to the Ratings Officer promptly.

Please fill in the correct details for your boat in the form below and submit the completed form to SISC's Rating Officer, Roger Kibble. If you have any questions, don't hesitate to contact Roger at rwkibble@shaw.ca.

Name of boat: _____

Type of boat (e.g. Catalina 27): _____

Boat owner's name: _____

Sail Number: _____

Date: _____

Boat owner's signature _____

1. **Roller furling genoa** with LP greater than 120%: Yes No

Roller furling mainsail: Yes No

2. **Windlass, stem head or pulpit mounted anchor:** Yes No

3. **Age of your boat's sails:** largest and youngest in years:

Mainsail _____ years old

Genoa above 120% _____ years old

Jib below 119% _____ years old

Gennaker/Spinnaker _____ years old

4. **Displacement:** estimate in pounds (lb.) any excess weight over or under the standard displacement for your boat:

_____ lb. over weight under weight

5. **Bottom condition** (indicate in one area only):

smooth bottom without growth and painted within last 12 months

bottom smooth but not painted within 12 months from current year

bottom has some uneven spots but otherwise is without growth

bottom has some uneven surfaces and has not been painted in last twelve months

bottom has actual barnacles/marine growth in some areas despite my attempts to brush them away

6. **Boat Displacement** under 12, 499 lb. over 12,500 lb.

7. Current **PHRF-NW** certificate Yes No

Previous PHRF-NW certificate Yes No Year? _____

Other area PHRF certificate... Details _____
